Suzuki, K. Professional Differences of Fatigue as Revealed by the Method of Electric Flicker. 1

Kuroya, M., Ishida, N., Katagiri, K., Shiratori, T. and **Chida, R.** Studies on the Antibiotic Substances from Actinomyces. (5th Report) 8

Suzuki, K. Oxygen Consumption during and after Exercise and its Relation to the Degree of Fatigue as Measured by the Method of Electric Flicker.... 9

Hamasato, Y. The Blood Group Substance in Red Blood Cells. First Report. A Search for the Group (A,B,O)-specific Substance in the Lipoid Fragment. 17

Kuroya, M., Ishida, N., Katagiri, K., Konno, J., Kikuchi, M. and **Mizuguchi, R.** Studies on the Antibiotic Substances from Actinomyces (6th Report). 28

Hamasato, Y. The Blood Group Substance in Red Blood Cells. Second Report. Is any Group Polysaccharide Existent in Erythrocytes? ... 29

Yoshida, K. Studies on Skin Pigments. 8th Report: Naevus fusco-cæruleus ophthalmomaxillaris OTA. Preliminary Report. 34

Hamasato, Y. On Proteines and Amino Acids. I. The Blood Group Substance in Red Blood Cells. Third Report. . Is any Group Protein Present in Erythrocytes? 35

Seto, H., Yamamoto, S. and **Fujii, T.** On the Paraganglia in the Ganglion of the Vagus Nerve. 39

Yamagata, S. Studies on Blood Diastase. The Sixth Report. Function of Blood Diastase. 43

Abe, M. Studies on the Influences of Mapharsen on Fixed Neoarsphenamine Eruptions. Preliminary Report. 48

Yamasaki, M. A Summarized Note on the Potency of Granular Leukocytes. 49

Iwama, K. Delayed Conditioned Reflex in Man and Brain Waves. ... 53

Iwama, K. The Influence of Oxygen Lack on Brain Waves in Man. ... 63

Fukuyama, U. and **Matsumoto, K.** Notes on Uncus gyri hippocampi in the Gibbons. 69

Matsuda, K. A Modification of Cardiotachograph. 75

Suzuki, C. Treatment of Pulmonary Tuberculosis by Monaldi Transthoracic Cavity Suction Drainage with Thoracoplasty. 77

Kondo, S. On the Isolation of a Strain of Penicillia which Possesses a Bacteriostatic Action against Gram-Positive Bacteria and a Property to Produce Penicillin. 87

Ito, M. Studies on Melanin. VI. The Genesis of the Nevus Cell. 95

Suzuki, T. Hematopoietic Actions of Some Complex Salts of Cobalt. ... 102

Tiba, H. Biochemical Studies on Carbohydrates. CXXV. Glycidamins in Human Bile. 103

Yosizawa, Z. Biochemical Studies on Carbohydrates. CXXVI. Structural Study of A-specific Carbohydrate from Mucus Mucin of Pig Stomach. Second Paper. 111

PAGE

Kurobane, T. Contribution to the Study of Argyrophilic Fibers. Preliminary Report: "On Angiorecticulin" 118

Ito, M. Studies on Melanin. VII. Mongolian Spot Cell and Blue Nevus Cell. 119

Iijima, S. Studies on Melanin. VIII. Melanodermatitis faciei. ... 125

Honda, K. and **Otomo, T.** Results of Cultivation of Tubercle Bacilli from Blood Stream, especially after Operation, in Surgical Tuberculosis. 135

Takahashi, S. A Method to Take Radiograms of the Transsection of the Body at any Inclination and Curvature. Preliminary Report. ... 138

Sakai, K., Takahashi, S., Yano, T., Kakazu, H., Kikuchi, K., Hayashi, K., Onodera, I. and **Murasato, S.** Blood Picture of Apparently and Really Healthy Children. 62nd Hematological Paper. 139

Takahashi, S. and **Nikaido, T.** A Method to Take a Radiogram of the Body in Three Dimensions. Preliminary Report. 144

Yosizawa, Z. Biochemical Studies on Carbohydrates. CXXVII. Structural Study of A-specific Carbohydrate from Mucus Mucin of Pig Stomach. Third Paper. 145

Yosizawa, Z. Biochemical Studies on Carbohydrates. CXXVIII. Structural Study of A-specific Carbohydrate from Mucus Mucin of Pig Stomach. Fourth Paper. 151

Hoshi, T. Presence of Carbonic Anhydrase in Salivary Glands and Kidney. Preliminary Report. 156

Furuhashi, S. Tubercle Bacilli in Vagina in the Tuberculosis of Female Genitals. 157

Nagase, H. Clinical Study of the Toxemia of Late Pregnancy, with Special Reference to Its Recurrent Conditions, Transition to Chronic Type and Eclampsia. 1st Report. On the Toxemia of Late-Pregnancy excluding Eclampsia 165

Nagase, H. Clinical Study on the Toxemia of Late Pregnancy, with Special Reference to Its Recurrent Conditions, Transition to Chronic Type and Eclampsia. 2nd Report. Clinical Study of Eclampsia and Its Recurrence and Transition to Chronic Type... 173

Osato, S. On the Chemotherapy of Carcinoma. II. 181

Motokawa, K. and **Suzuki, K.** Electrophysiological Studies of Color-Blindness. 195

Vol. 52, Nos. 3 & 4. September 30, 1950.

Motokawa, K. Summation of the Color Processes in the Human Retina. 207

Motokawa, K. Selective Inhibitory Action of Colored Light upon the Retinal Color Processes and its Usefulness for Analysis of the Mechanism of Color Reception... 213

Yamasaki, M. A Preliminary Note on the Intramedullary Hematopoiesis 222

Iwama, K. and **Shinjo, T.** A Method for Leading off Action Currents from Human Salivary Gland and for Recording Velocity of Secretion. 223

Kurokawa, T., Saito, T. and **Amakasu, H.** An Additional Method in Roentgenological Diagnosis of Oesophagus, Stomach and Duodenum, Using an Air-filled Balloon. 230

PAGE

Shinjo, T. The Action Currents and Secretion of the Human Parotid Gland. 231

Shinjo, T. Salivary Secretion in Relation to Facilitation and Inhibition in the Sense of Taste. 241

Nagaoka, T. Biochemical Studies on Carbohydrates. CXXIX. Chondrosin. Seventh Report.... 249

Sato, A. and **Arakawa, T.** A Strange Way of Detoxication: Detoxifying by Excretion of Poisonous Metabolite into Milk. 172nd Report of the Peroxidase Reaction. (119th Human Milk Study). 251

Okabe, H. An Antibiotic Substance Produced by a Gram-positive, Sporeforming Bacillus Isolated from Soil.... 255

Hosisima, K. and **Okabe, H.** Studies on the Promotiong Agent Obtained from Houttuyna cordata (Dokudami) for the Production of the Antibiotic Substance by a Strain of Gram Positive, Spore Bearing Bacilli. 265

Hosisima, K. A Study on the Metabolic Products of a Strain of Penicillium monoverticillata stricta. 273

Hiyama, N. On Proteins and Amino Acids. II. An Acetic Acid-Hydrochloric Acid Reaction of Proteins. First Report. 283

Tsunoda, K. Studies on the Antitoxic Function of the Liver. I. On the Antitoxic Function in Healthy Men and Liver Patients. 289

Tsunoda, K. Studies on the Antitoxic Function of the Liver. II. On the Antitoxic Function of Potors and Habitual Drinkers.... 299

Tsunoda, K. Studies on the Antitoxic Function of the Liver. III. On the Antitoxic Function of Survivers of Methylalcohol.... 307

Hayashi, M. Electroencephalographic Study in Clinical Cases of Head Injuries.... 311

Watanabe, I. Electroencephalographic Observation of Brain Tumors. 325

Takita, S. Does the Amount of Epinephrine in the Peripheral Blood after Morphine Exceed the Limits Determinable by the Frog Legs Vessels Method? 335

Motokawa, K. and **Suzuki, K.** Quantitative Aspects of Retinal Inhibition. 341

Motokawa, K. and **Suzuki, K.** Analysis of the Retinal Processes by Selective Inhibition. 349

Kanno, J. Pharmacological Studies of Citral and Some Other Aldehydes. 361

Miura, S. On the Experimental Formation of the Silver Fiber. 373

Suzuki, T. On the Intensity of the Accelerating Action of Eserine upon the Epinephrine Secretion of the Suprarenal Gland. 385

Kurobane, T. and **Ishibashi, K.** An Autopsy Case of Tuberous Sclerosis of the Brain Veiled by an Abdominal Tumor. 395

Mita, T., Hironaka, K. and **Koike, I.** The Influence of Retinal Adaptation and Location on the "Empfindungszeit."... 397

INDEX TO VOL. 52 OF THE TOHOKU JOURNAL OF EXPERIMENTAL MEDICINE

Subjects

Abdominal tumor : Tuberous sclerosis veiled by — — *395*
Acetic acid-HCl reaction of protein *283*
Actinomyces : Antibiotic substances from — *8, 28*
Action current : — — and salivary secretion *231*
— — of salivary gland *223*
Adrenaline : — and eserine *385*
Amount of — in blood after morphine *335*
Aldehydes : Pharmacology of citral and other — *361*
Amino acids : Acetic acid-HCl reaction of — — *283*
Anhyrase : Carbonic — in salivary glands and kidney *156*
Anoxia : Influence of — on brain waves *63*
Antibiotic substance(s) : — — from actinomyces *8, 28*
— — from sporeforming bacillus..... *255*
Promoting agent for producing — — ... *265*
Argyrophilic fibers : *118*
B. tuberculosis : — — in vagina of tuberculous cases *157*
Postoperative cultivation of — — *135*
Blood diastase : Function of — — *43*
Blood picture : — — of apparently and really healthy children *139*
Brain tumors : EEG in — — *325*
Carbohydrate : A-Specific — from mucin of pig stomach mucus... *111, 145, 151*
Carbonic anhydrase : — — in salivary glands and kidney *156*
Carcinoma : Chemotherapy of — (with report of cases) *181*
Cardiotachograph : Modification of — *75*
Cavity, tuberculous : Cavity suction drainage (Monaldi) *77*
Chemotherapy : — of carcinoma (with report of cases) *181*
Chondrosin : Chemistry of — *249*
Citral ; Pharmacology of — *361*
Cobalt, complex salts : Hematopoietic action *102*
Color-blindness : Electrophysiological studies of — *195*
Color processes : Selective inhibition of — — *213*
Summation of — — *207*
Conditioned reflex : Delayed — — in electroencephalogram *53*
Detoxication in organism : Strange way of — — — *251*
Digestive organs : X-ray diagnosis of — — with air-filled balloon *230*
Eclampsia : — as toxemia of late pregnancy *173*
Electroencephalogram(s) : — in brain tumors *325*
— in head injuries *311*
Influence of anoxia on — *63*
" E. Z." : Influence of retinal adaptation and location on — — *397*
Eserine : — and adrenaline *385*
Fatigue : — according to kinds of labour *1*
— as measured by electric flicker *9*
Glycidamin(s) : — in human bile *103*
Group polysaccharide : — — in erythrocytes *29*
Group protein : — — in erythrocytes ... *34*
Group specific substance : — — — in erythrocytes..... *17, 29, 35*
Head injuries : EEG in — — *311*
Hematopoiesis : Complex salts of cobalt *102*
Intramedullary — *222*
Hippocampus : Uncus gyri hippocampi in gibbons *69*
Labour : — and fatigue *1*
Leucocytes : Potency of granular — *49*
Liver : Antibiotic function : — — in liver patients *289*
— — in potors and drinkers *299*
— — in survivers of methylalcohol ... *307*

Mapharsen : Influence of — on fixed neoarsphenamine eruptions *48*
Melanin : — and genesis of nevus cell... *95*
— and melanodermatitis faciei..... *125*
Mongolian spot cell and blue nevus cell *119*
Milk, human : Excretion of poisonous metabolite into — — *251*
Morphine : Amount of adrenaline in blood after — *335*
Mucin : Mucus mucin : A-specific carbohydrate from — — pig stomach *145, 151*
Paraganglia : — in ganglion of vagus... *39*
Penicillin : Isolation of a strain of penicillia producing — *87*
Penicillium monoverticillata stricta : Meatbolic products of — — — *273*
Pigment : Skin — and nævus fusco-cæruleus ophthalmomaxillaris OTA *34*
Pregnancy : Late — : Toxemia of — — *165, 173*
Radiogram : — in three dimensions..... *144*
— of transsection of human body *138*
Reticulin : Angioplastic — (angioreticulin) *118*
Retina(l) : Analysis of — processes *349*
Influence of — adaptation and location on "E. Z." *397*
— inhibition *341*
Salivary gland(s) : Action current of — — *223, 231*
Carbonic anhydrase in — — *156*
— — and sense of taste *241*
Sclerosis, tuberous : — — veiled by abdominal tumor *395*
Silver fiber : Experimental formation of — — *289*
Solidogram : — (=radiogram in three dimensions) *144*
Taste : Salivary secretion and sense of — *241*
Toxemia : — of late pregnancy (eclampsia) *173*
— of late pregnancy (excluding eclampsia) *165*
Tuberculosis, human : Monaldi treatment of — — *77*
Vagina : — of tuberculous cases : B. tuberculosis in — — — — *157*
